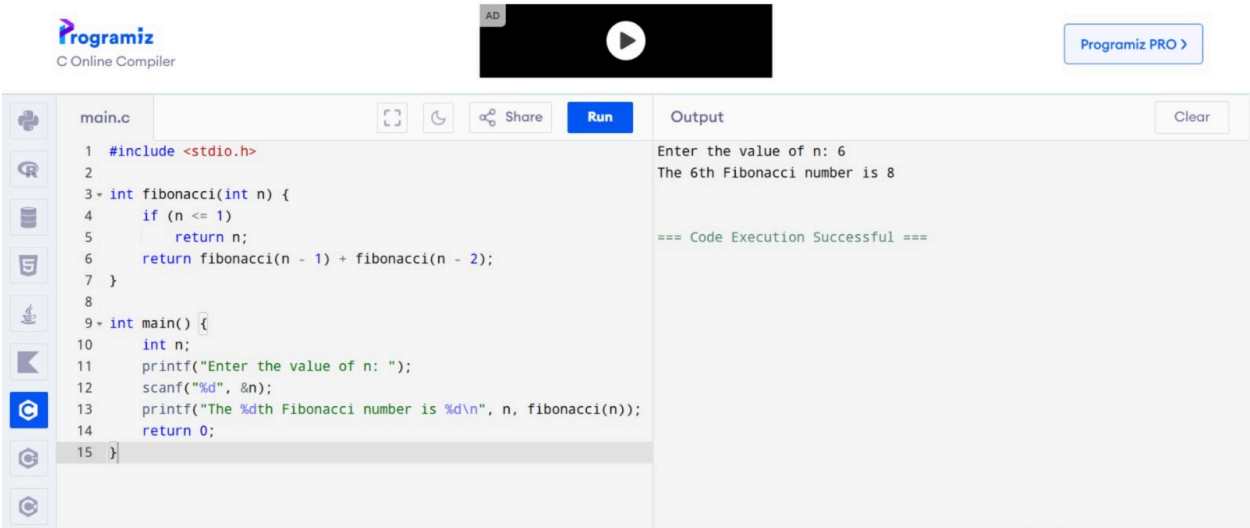
lab_3 third lab program

CODE:

nth Fibonacci Number Using Recursion:

```
#include<stdio.h>
 int fibonacci(int n) {
 if (n <= 1)
 return n;
 return fibonacci(n - 1) + fibonacci(n - 2);
}
 int main() {
 int n;
 printf("Enter the value of n: ");
 scanf("%d", &n);
printf("The %dth Fibonacci number is %d\n", n, fibonacci(n));
 return 0;
 }
```


OUTPUT:
